

Thank you for contacting us about our Clay Pilot Program!

We look forward to working together to create fun and unique art pieces for the children to enjoy!

The Clay Pilot program is a great for all ages. During this program, an instructor will teach children about how clay is produced, as well as some basic techniques. To help with scheduling for projects, the students will create one project that will be brought back to the Station Arts Centre to be dried and fired taking approximately 2 weeks (3 for items that require glazing), and returned to the students after. The teachers can choose from the following projects:

- Dudes or Animals - (Pinch pots that become faces, animals, or creatures)
- Angels - can be glazed for an additional \$2/piece
- Vases – Inside can be glazed for an additional \$1/piece (not waterproof if not glazed), full glaze for an additional \$2/piece
- Candle Holders - can be glazed for an additional \$2/piece
- Mugs - MUST be glazed to be food safe, at an additional \$2/piece
- Bowls - MUST be glazed to be food safe, at an additional \$2/piece
- Trays – MUST be glazed to be food safe, at an additional \$2/piece
- Wall Sconces -(hanging wall decoration with pocket) can be glazed for an additional \$2/piece
- Masks- fits most themes

* **Glaze choices will be sent when requested, one glaze colour per class/group.**

If you have a theme for the class, we can alter any above projects to match that theme. To include the children in the entire process, we ask them to set up their work areas prior to the instructor's arrival and during the class we ask for help with distributing, and tidying up of materials.

The program costs \$5 per child and takes approximately 1.5 to 2 hours to complete and is available throughout the entire school year. Each child will be supplied with **one piece of clay (the size needed for the project chosen), a cup for water and the utensils**. Any additional requests for clay will be an additional charge of \$5/piece (some exceptions apply)

Teachers/Parents will be asked to sign a sheet brought with the instructor confirming number of pieces from the class/group. This helps to ensure that no pieces are forgotten, due to the popularity and high volume of Clay Pilot sessions.

Arrangement for pickup or delivery of finished clay pieces must be made prior to the scheduled date of class. The teacher/parent present for pickup/delivery will be asked to confirm and sign off on the number of pieces.

Thank you for your continued support, we would not be able to offer these programs if it was not for the cooperation and participation of local area schools.
